

TPB STRATEGIC SERVICES

PROGRAM LEADERSHIP | STRATEGY & EXECUTION | INTEGRATION

FROM STRATEGY TO RESULTS

TPB Strategic Services helps organizations turn complex objectives into executable programs and measurable results through experienced program leadership, strategic planning, operational integration, and stakeholder alignment.

PROGRAM & OPERATIONS MANAGEMENT

- Portfolio, program, project, and PMO leadership
- Cradle-to-grave planning from requirements through transition
- Integrated governance, schedules, risk, resources, and budgets
- Cross-functional delivery and stakeholder alignment
- Program and process repair, recovery, and improvement
- Sustainable results through effective system implementation
- Executive reporting, decisions, and change leadership

WHY TPB

- Turns ambiguity into executable plans and measurable outcomes
- 20+ years leading complex programs across military, government, and defense industry
- Connects executives, customers, technical teams, operators, and partners
- Repairs underperforming programs and installs systems that sustain results
- Combines senior leadership with hands-on U.S. and overseas execution

SPECIALIZED CAPABILITIES

- Defense technology integration, rapid prototyping, test, fielding, and transition
- Army rapid acquisition process and mission-focused advisory support
- Air and missile defense, counter-UAS, directed energy, and emerging capabilities
- Multinational planning across U.S., allied, and partner-nation teams
- Overseas execution, including equipment movement, sustainment, test, and operational fielding
- Indo-Pacific and CENTCOM experience across military and defense-industry roles

REPRESENTATIVE FOUNDER EXPERIENCE

- Planned and led near-simultaneous IFPC-HPM operational fielding to CENTCOM and testing in the Philippines; led the Philippines execution on the ground
- As Brigade Deputy Commander, closed a projected \$5M budget gap and generated \$4.8M in annual savings through operating and resource-allocation changes
- Directed AI, software, and R&D programs for 40+ engineers and scientists, improving execution, forecasting, and resource alignment
- Led programs and complex operations from requirements and planning through execution, fielding, transition, and sustainment
- Repaired programs and processes by rebuilding governance, controls, accountability, and operating systems for sustainable results
- Nearly 10 years coordinating with partner nations across CENTCOM and INDOPACOM in military and civilian-contractor roles

ENGAGEMENT MODEL Program leadership | PMO support | Program recovery | Fractional leadership
Strategic advisory | Test and integration | Prime/subcontract support

BUSINESS INFORMATION

Structure: Wyoming LLC
Ownership: Service-Disabled Veteran-Owned
Security: Current Top Secret eligibility
Access: Organizational sponsorship required
Availability: Remote, on-site, and hybrid
Coverage: United States and Indo-Pacific

FEDERAL SERVICE CATEGORIES (NAICS)

541611 Management Consulting | 541690 Scientific & Technical Consulting
541330 Engineering Services | 541715 Physical & Engineering R&D

CLIENT OUTCOMES

ALIGN

Clear objectives, ownership, priorities, and decision paths.

EXECUTE

Disciplined delivery across teams, schedules, risks, and resources.

DELIVER

Measurable results, informed decisions, and sustainable transitions.
